Product designer with 2+ years in B2B SaaS and agentic AI. Founding designer at JusRecruit, an agentic AI recruiting platform ranked #10 on Product Hunt at launch, and product and graphic designer at HireHunch, a technical hiring suite serving 150+ client companies.

EXPERIENCE

Founding Designer, JusRecruit | Product and Graphic Designer, HireHunch Mar 2026 – Nov 2026
Bengaluru

Promoted from intern to full-time for performance; the only designer across both companies.

JusRecruit — agentic AI recruiting platform, #10 on Product Hunt at launch

- Designed the agentic workflow for Saina, an AI recruiter that runs phone screens and first-round interviews, with AI scores, review steps and overrides keeping recruiters in control.
- Replaced static stat cards with a stage-by-stage hiring funnel, so recruiters see where hiring stalls and who the AI screened out; cut the candidate device check from 3 screens to 1.
- Designed human-in-the-loop bulk actions: reviewable, personalised rejections for 1,000+ candidates at once, and a document-collection builder with auto-reminders that replaced email chasing.
- Built the brand system and Product Hunt Top 10 launch campaign as solo graphic designer; the launch was featured in Product Hunt's newsletter (1M+ subscribers).

HireHunch — technical hiring suite serving 150+ client companies

- Designed HunchVue, an AI-native interview IDE with multi-file, API and SQL environments across 40+ languages, and controls to allow or restrict AI and see AI, paste and camera events.
- Made assessment authoring self-serve in HunchAssess: a 3-step builder for 5 question types, AI-generated adaptive tests, and SQL databases with a schema explorer and safeguards.
- Designed the B2C AI mock-interview purchase flow, redesigned the HunchVue and HunchAssess landing pages, and art-directed 20+ LinkedIn creatives for the HunchVue launch.
- Prototyped key flows in HTML with Claude to align the founder and engineers before handoff, delivering 300+ desktop and 30 mobile screens.

Junior UI/UX Designer, CompiledBox (Remote) Jul 2025 – Mar 2026

- Owned the full design lifecycle for 8+ clients in Europe and India across wellness, AI infrastructure and travel, from research to dev handoff and UAT.
- Led redesigns for Farmvilla, Xcergy and Hostnxtra, validated through rapid prototyping.

EARLIER EXPERIENCE
